PLANNING MATRIX

Now that you've analysed the Group, you will have a better understanding of which elements could do with some support, but which ones do you prioritise? You can use a 'Planning Matrix' to chart where you should focus your efforts. It may be worth putting the elements that you are going to work on from the RAG and SWOT analysis onto small sticky notes as they are likely to be moved around the windows until everyone is happy. You may also want to draw the matrix on a bigger piece of paper.

Discuss with your team where they think items should be placed in the matrix, and how urgent and important it is. Make sure there is a consensus over where items have been placed and that everyone's view has been discussed and not ignored.

It is **SOME** of the items in top right hand box, the high importance, high urgency box, that will be carried forward into the development plan.
